TECHNICAL SKILLS

- React
- Javascript
- HTML, CSS
- PHP
- MySQL and databases
- Node.js
- Git, GitHub
- Object Orientated programming
- Agile methodologies
- Collaborative programming

PROFILE

I am a motivated software development student, eager to start a tech career as a developer. During my BSc Psychology degree, I mastered tools such as PsychoPy, Excel, and JASP for experiment development, data manipulation and statistical analysis. This led to me independently pursuing software development, learning HTML, CSS, and JavaScript before enrolling in a full-time Full Stack Developer Course at iO Academy.

EMPLOYMENT HISTORY

Alpine Elements

(Nov 2023 - Apr 2024)

- Chalet Host in the French Alps, responsible for 14 guests and maintaining a chalet, building confidence, public speaking, and thriving under pressure.
